**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Small telecommunication companies have better understanding for customer service needs in the community. Small businesses may provide multilingual customer service and their competing manner with big companies may maintain the internet prices and other telecommunication services in balance. It is very important for small businesses to save competitive carriers who not only help to grow small business, but also play a huge role in development of internet access in the US.
